Some fellow of an inquiring disposition has just discovered that the new tariff schedule adds fifteen per cent to the duty on bibles. No doubt many a poor man who might otherwise have been saved will now have to live in spiritual darkness and spend an eternity in limbo, all because of the high tariff on bibles. Intelligence ought not to be a disbarment from jury service in the opinion of Judge Shelton, of Missouri. In a murder case recently tried before him the state's attorney severely questioned witnesses about having read newspaper accounts of the crime, with the customary purpose of disqualifying them. Judge Shelton put an end to this proceeding by saying: "What's the difference if they have read the newspapers? They'll make all the better jurors. To say a man ought not to serve because he has read the newspaper accounts is saying, in effect, that a jury of intelligence is objected to. That is not just; neither is it the law." This judicial opinion is not only refreshing, but it is an evidence of sound common sense on the part of the judge who gave voice to it. Men with so little intelligence or interest in the affairs of the world as to fail to read the newspapers and thus keep abreast of the times ought to be disqualified from jury service rather than sought for as the arbiters of a fellow man's life or liberty.

## NEKOOSA

(From the Times.)

Lewis Koehn and A. R. Cowie of this city have invented a paper stock screening press which has been in successful operation in the basement of the Nekosoa paper mill since the first of the year.

The press is operated by low water pressure and steam and has a practical machine from the start. The idea of constructing a machine for saving the screenings which have heretofore gone wasted originated with Superintendant Cowie and Mr. Koehn built it. They have applied for a patent, having been assured by patent attorneys at Washington that the device is patentable.

Mrs. Fred Kruger came down from Grand Rapids Tuesday and spent the day with Mrs. T. S. Cahill. Mrs. Kruger will be remembered in Nekosoa as Miss Margaret Kruger who taught school on Woods Farm for a number of years.

Roy Jos. Feldman received word from the Bishop of LaCrosse not to hold any more church services at the hall in the village of Port Edwards. This is due to the fact that the street cars can easily accommodate all those who wish to attend services here, that town being within our jurisdiction.

Miss Mary Zolkowaki and Mr. Adam Jarutowski were united in holy bonds of matrimony at Sacred Heart Catholic church in this city at ten o'clock last Monday morning.

Morris Foreman, a Jew apple peddler from Grand Rapids, was brought before Justice H. H. Hake last Thursday on an assault and battery charge preferred against him by Mrs. J. H. Koehler. He pleaded guilty and was fined \$25 and costs.

Defendants paid \$18 and left two barrels of apples with the officer as security for the balance of the fine.

## Ganderbone's Forecast for Feb.

My dears, do you know  
That a short time ago  
Two dear little children  
Named Ted and Pinchot  
Were stolen away  
On a bright autumn day,  
And would have been dead  
Had Ted not his way  
Found out?  
Their captors had planned  
When they got them in hand  
To dash for the nearest  
Tall out in the land,  
And there in the trees  
To desert them to freeze  
And to die of starvation  
And grief, if you please  
And when they were dead  
The robbers so red  
Were to cover them up  
From the foot to the head  
With leaves of the wood,  
And to sing when they could,  
"Poor little in the forest,  
Now will they be good?"  
But look far and wide,  
Never forest was spied,  
Nor any place left  
Where the babies might have died;  
For the forests of yore  
They would never see more,  
And they heartily wished  
They had saved three or four  
Which occasioned a halt,  
And with a viral assault  
They openly said  
It was Ganderbone's fault;  
So they cursed him some more,  
And they bitterly swore,  
And the babies were put back  
Just as good as before.

But that's enough of Ganderbone, or for him or for him; the groundling will awake again upon the 2d inst. He'll punch himself a time or two, roll over on his back, engage in enthusiasm till he's sure he isn't dead, recall the day's significance with never-fading humor, and come out to compare his birth with that of the consumer.

And side by side before his halo these two will reunite, and each will tell the other what his weight, if any, is. They'll feel of one another's ribs, tell stories, laugh and paddle, jump up and down to see whose bones will make the drier rattles, and then, with scolding back to back and no small bit of action, they'll ascertain if they can throw a shadow in conjunction.

"The which the country will await with trembling and unguishing, for if they can, we'll have to think of how to keep on living another 30 days and nights, frostbit and lamp-shaken, and paying an admission fee to see a piece of bacon."

But let us all be reassured  
And have the heart to sing:  
We don't believe a dozen such  
Could hope to show a thing;  
Or forty of them half and half  
In solid phalxes there,  
Unless they counted One-two-three,  
And filled themselves with air.

Our Mr. Tail should be ashamed to be so fat and sleek with everything so high we can't get under but once a week. He ought to be too big a man in other ways than his to keep so luxuriant when he sees how thin the country is. A sympathetic president in such a time of test would ask for nothing but to take out back with the rest. He'd cut his hand and simple crust, his grapes and butter cake, and join the country in the stand we've taken as to stunk. It doesn't seem like hard-heartedness for one in such a place to food himself on terrapin and set such a pace. He ought to live on hominy and grow so thin and gaunt that anyone with seeing him would think he was in want. It would become him very well to say, "I live on rice," and prove it when he wrapped his coat around his holy twice. We'd all stand up and honor him, alike with us heretofore, and cheer him with what little strength the most of us have left.

St. Valentine will open up his moving picture show And run a nickelodeon For seven days or so. He'll show us Alvernon the Dado, And Little Will the Dancer, And how we terribly again With those unwitting stunts. And maybe this time we shall rise, As we should do, by gum, And put this whole infernal brand Of humor on the bum.

We never did know what it meant, if anything at all, or who it was that started it, or why we had to fall for such a custom. Off we think the way that we believe must make the good St. Valentine turn over in his grave. It is a shame to break his sleep, which also were quite serious, and keep him spinning just as if there were a belt between that ancient and respected tomb of him a long time dead and all the wheels there are in some fool picture maker's head.

At any rate, the country will by hook or crook survive and hail the blessed day that saw George Washington arrive. As time proceeds we more and more appreciate his making, and wonder if his coming here was not a great mistake. We can't help thinking that he was supposed to go to Mars, or possibly to one of the still older, riper stars. A man who will not tell a lie is not like one of us, and we'll bet a dollar he was billed to go to Uranus or somewhere else where one of us had been to them as queer and unlike everyone as George has been among us here.

But he it is as happy will. It soon shall come about That Lent will carry up to help The poor meat striker out, And Hadley's coat will assume The aspect of a sergen. And see what it can do to save Us all from Mr. Morgan.

If that won't make him loose his grip it will be time to wonder if Mr. Morgan, too, is not a planetary blunder, and if he should not have been born where others such as he are and no one is so far advanced in offices yet as we are.

However, from the 17th we shall no longer Pines, the symbol of the Fish, and the significance of this is that persons born beneath the sign, though not quite Washingtons, will not be liars like we are, but only

little ones.  
The moon will fill the 23d, and the last week will be quiet unless we have a freightette or anti-tariff riot. The trust's big aviation meet will take the month out right, and beef at 30 cents a pound will win the prize for height.  
And then the welcome Spring will come.  
The Winter go-a-scooting,  
And March come in like one of what T. Roosevelt is shouting.

**Old Red Boze Floored Him.**  
Detroit, Mich., Jan. 25.—Hugh Cannon, who wrote "Goo-Goo Eyes," "Ain't That a Shame," "Bill Bailey," and other classics of ragtime, was sent to Eloise poorhouse on Monday at the age of 36 years. He told the story of his life in short, expressive sentences.  
"I quit cocaine easy," he said. "Fifteen days in the jail cured me of that. I hit the pipe in New York for a year and stopped that. I went up against the morphine habit and quit, but booze, red, oily booze—that's got me for keeps."  
"I started when I was 19; I'm 36 now, and except for seven months on the wagon I've been drunk most of the time. It was twenty years—twenty black, nasty, sick years—with only a little brightness now and then when I made good with some songs."

**Good Old Days.**  
The Antigo Daily Journal sizes the situation up right in the following editorial:  
"Notwithstanding the present high cost of living how many would be willing to have the 'good old times' of fifty years ago? Better then sold for 10 cents, eggs 5 or 6 cents, lard 2 cents, pork, dressed, 3 to 5 cents, beef 1 or 2 cents, fish could be had for the catching, same with partridges, venison, prairie chickens, quail, etc. Those were 'good old days' when mother made all the clothing used in the family. There were no railroads, no electric roads, no automobiles, and as everybody used tallow candles there was no demand for electricity or gas; kerosene was a luxury but few could afford; sewing machines were more toys than were run by hand—one in a township was the average record; nearly all the axes used were made at the forge of the village blacksmith, which was the same with horse shoes, etc.; all food wear was made by the cobblers of the town; lumber wagons answered for carriages as well as for transporting traffic and were usually propelled by Buck and Bright or Stub and Twist. A wage of twenty-five cents a day would then support a family in the luxuries of the time, O, weren't those happy days though?"

**A Remarkable Case.**  
Thos. Reed, of Nellisville, Wis., says: "Your White Wine of Tar Syrup is the best medicine for the lungs that has ever been sold in this county. I speak from my own experience; I think it has twice saved my life when suffering from a disease of the throat and lungs. It cured my neighbor, Mr. Jowers, of asthma that had afflicted him for years." P. L. Steib.

## Good Tailoring

Ther is no substitute for good tailoring—a suit is either right or wrong. It is possible to get perfection—don't be satisfied with any thing else. Good tailoring is simply putting thought and skill into every part of the suit—not into some parts.

Look over your wardrobe. Order what you want now. I will give a good substantial reduction on anything ordered of me during the month of February.
